JACKBONVILLE, Fla., March 14.—
Tommy Bannon will have to take a rest, and after to-day it is doubtful if he will take part in any of the games for a week. He has sprained a tendon in his wrist, where he was hit by Rusic a week ago.

It was not thought at first that there was anything the matter with his arm further than a little soreness where the ball struck him. Within the past few days, however, it has grown worse and last night he consulted a physician. The latter advised him not to use his wrist at all for two weeks. This is a severe seback for Hannon, who is ambilious and was progressing linely.

The Gianis put up another excellent article of ball yesterday. The game was nip and tuck from the start, and the regular team had to hustle in the hardest kind of way to beat the youngsters out by one run. Knauss, who pitched the first five innings for the second team, did good work.

Manager Davis and all the players seem to think that he is a winner and will rank as one of the stars at the end of the season.

"Jimmy" Stafford had an off day, making two errors. The grounds were in such a bad condition, however, that both were excusable.
